Notes:

1. A shipment occurs when a general aviation airplane is shipped from its production facility to a customer located anywhere in the world.
2. Shipments may include deliveries to a fractional operator owned by the company or to an aircraft dealer.
3. An airplane is considered to be manufactured in the United States when produced under an FAA production certificate.
4. Military airplane shipments are not included in shipment table totals.
5. Company billings are not reported. Where available, GAMA estimates total billings using public information including B&CA 2009.
6. Airbus deliveries include A318, A319, and A320 models in executive or corporate configuration. One A330 and one A340 VIP were also delivered in Q4.
7. Boeing also delivered one B767-400 VIP in Q1 and one B777-300ER VIP in Q4.
8. Cessna Aircraft Company C162 SkyCatcher (SLSA) and Diamond Aircraft HK36 Motor Glider models are included in civil make-model shipment total, but not summary tables. This change is intended to properly capture all deliveries by the companies listed while maintaining a consistent baseline of shipments from previous years' reports.
